

Fire Rebuild Support Menu of Professional Services

All members of our community have been affected by the recent wildfires, including the staff of BC Engineering Group. In response, our engineering team has decided to make the rebuilding efforts for our community the highest priority. Our staff is available to start on rebuild projects immediately upon authorization. Below you will find a list of services related to the fire rebuild efforts and fields to provide important information regarding your project. If you need services that are not listed in this document, please contact us; we can likely provide the support you need or we can connect you with someone who can.

Please mark which services you would like performed and provide us with your contact information and site address; we will use this information to prepare a proposal contract for your review. You can email a completed copy of this form to tb@bcengineeringgroup.com.
